Dear Mayor Cavanaugh:

I trust you will have the courage NOT to veto the "Stop and Frisk" Ordinance passed by the City Council.

Certainly the law-abiding majority should be protected from the criminal minority. We have too much civil liberty in the United States, and especially our large cities, and not enough safety. We would certainly prefer being among those "stopped and frisked" to being among those killed because someone was NOT stopped and frisked.

Sincerely,

*Mrs Richard Burman*
