The Honorable Coleman Young
Mayor of Detroit
1126 City-County Building
Detroit, Michigan 48226

Dear Mr. Mayor:

We are very concerned about the decision to close the dental clinics which provide care for the children at the Williams School. Our children who are unable to afford dental care have been going to the Barbour and Cooper Schools for free dental service since the inception of the program.

We recognize your responsibility in regard to fiscal matters of the city, but we feel that the health and welfare of our children must not be overlooked because of the financial plight of the city. Will you please reconsider this matter and arrange for the continuation of the free dental service for indigent students.

Thanks for any consideration you may be able to give to this matter.

Sincerely,

Clinton Isom
Principal
