Attention Mayor Cavanagh:

MAYOR'S OFFICE

As a law abiding citizen, I think it is high time for our local government to do something about this terrible Crime Wave here in Detroit and what are you going to do about it?

I congratulate the Detroit American newspaper for keeping us informed, I as a woman live in fear everytime I leave the house and go outside to shop, a person is not safe inside or outside anymore with these white and black gangs who roam the streets of our city with their switch blade knives and guns, they pick on helpless old people and helpless women.

We need a strong Stop And Frisk Law here in Michigan, as for the Negro saying a law like that reflects on them and thats where they are so wrong because these whites and blacks are real criminals and should stop using this Racial Prejudice as an excuse for robbing and torturing people, its high time the Police should be allowed to the job they are trained for.

May I suggest for you and Governor Romney to take a good look at all this and please do something for the people that live here here, are not we entitled to walk the streets in our city without fear?

You as Mayor and the Governor have protection everytime you face big crowds, thats good for you two but who is suppose to protect us with all these criminals roaming the streets?

a must
I disagree with you about our Mounted Police, they are ~~a must~~ and we tax payers need them.

very truly yours,

*Mrs. Rose Robbino
