

Horace Sheffield--Said he was at Diggs dinner and the reaction of "state officials" was one of opposition and concern. I think this can create real problems. Friends of the administration are opposed. You should seriously reconsider the proposal and hold a meeting to acquaint all sections with the problem. I'm not saying anyone panicked but there were obvious pressures. With more thought, you could come up with plans to eliminate, or at least alleviate crime.

Proctor-----Should hold meeting of total community. Hopes mayor will reconsider and hold meeting to eliminate "the problems of crime", get at the cause. He ended by saying this could lead to "trouble worse than 1943"

Ted Saks-----He asked for a copy of the draft of legislation along with Mazey.

There was then a discussion about drafting the legislation at all. Most of them said nothing should be done right now.

The meeting ended, just ended. It appeared they are all waiting for your return and the call for a meeting of the "total community".

Otherwise:

Louie Mazzano said he has arranged with John Riley , agent in charge at Kennedy to get you through customs. Riley has your flight number and said he would look you up and get you out fast.

Everybody hopes you have a good time with Lou Baby.

I told Mayor Kelly you would not be at the dinner.

jt.
