Tonight ~~xxxxx~~ some time after 12 midnight I had driven my cab to 6 mile and Livernois for a cup of coffee. As I pulled up on Livernois south of 6 mile I had to wait for a man to pull his car up so I wouldn't stop in the bus stop. The driver of the car was standing in the street talking to a 2nd car and when he back up he walked into the front of my car while I was stopped. He said that I had run into him and I knew that he was drunk so I gave him my name and he ~~xxxxx~~ went and pulled his car up and parked. So did I and then we walked back to the corner and just as we were ready to go into the restaurant I heard a lot of shooting.

I turned and looked about a 45° angle west and across the 6 mile and saw two cars stopped at the curb facing west. There were two men outside of the car in back and they were shooting west and there was flashes coming from the front car as if someone inside was sticking his arm out and shooting back towards the two men. One of the two men in back fell in the street and the other man kept ducking behind the car and shooting. The car in front finally drove off west on 6 mile and the man ducking behind the car in back reached over his car and it looked like he was aiming at the car pulling away and he was shooting at it. I just know that car was hit by his bullets.

Q Did you see any of the men that drove off in the front car.

A No I couldn't identify any of them.

Q Do you know of any other person that saw the shooting.

A There were a lot of people on the street but I don't know any of them that saw it.
