November 15, 1957

Mr. Mayor:

Shocked and alarmed over the recent events that happened showing police brutality at it's sadistic high. Plus the fact that the Police Commissioner seems to condone the beastial methods used against Mr. Donovan, I am appealing to you to do something about this appaling condition.

What can we do to protect ourselves against illegal actions disguised behind a uniform and a badge?

If the recent hearing of the officers accused by Mr. Paul Donovan is going to set a precedence, I am afraid we can do nothing.

Realizing the fact that the superiors of these officers have no feeling for the rights of the private citizen, I am asking you Mr. Mayor, to do something to protect us from a repeat performance of this last act of Russian type police action.

Respectfully yours,

Gerald J. Davis
