I have known Cynthia Scott for about 3 mos. About 11³⁰ pm - 7-4-63 I saw her John R + Watson. We talked - weren't together all the while - but not out of each others presence for any length of time. Eventually she asked me to walk her home. We started South on John R from Watson and she wanted to go to the Chop Suey Place for a take out order. We got a little past Edmund when the Squad Car pulled alongside. The taller of the two officers got out of the car + grabbed Cynthia + told her to get in the car. I asked the officer "What has she done?" He told me he knew her for what she was. Cynthia told the officer to stop grabbing her. The other officer got out of the car + was talking to me. The next thing I knew Cynthia was across on the W. side of John R. The officer was about 8' from her. He had his gun out. He fired once - she continued North. He fired a second time - she kept going. He fired a third time + she fell. The officer that did the shooting returned to the car + made a call.

I went to Cythia's house - told her husband Oates - went to receiving in a cab.
